**Accudyne Systems Welcomes Visitors in the American Pavilion at JEC World 2020**

**January 6, 2020 (Newark, DE)** – Accudyne Systems will be welcoming visitors to their booth (R31c) within the American Pavilion at *JEC World 2020* on March 3 – 5, 2020. We will be answering questions and discussing our capabilities in bringing ideas to reality in composites manufacturing automation.

Our expertise is in the design and manufacture of part-specific equipment to automate difficult and/or labor-intensive processes. Our Technical Staff develop unique solutions that enhance the quality, productivity and profitability of our customers' products. We specialize in programs requiring Development, Prototype Demonstration, and Full Scale Equipment Manufacturing. Key examples include Pick & Place, Shape Forming, Compaction/Debulking, Converting Equipment, Multifunctional Machines and Workcells.

**ACCUDYNE SYSTEMS** is an internationally recognized provider of Custom Automation Equipment for producing intermediary materials, preforms and finished parts. For over twenty years Accudyne has been providing solutions to complex equipment processing challenges. Our focus on finding the optimum solution for each client's specific and often unique needs has resulted in a wide range of custom automation equipment.

**JEC World** is the foremost event of the composite materials industry. It offers three intense days of innovation, networking and knowledge sharing with more than 112 participating countries and 27 national pavilions. In 2019, over 1300 exhibitors and 43,500 visitors participated in the conference programs and exposition.

**JEC Group** is the world's leading company dedicated entirely to the development of information and business connections channels and platforms supporting the growth and promotion of the composite materials industry. Publisher of the JEC Composites Magazine - the industry's reference magazine, JEC Group drives global innovation programs and organizes several events in the world, including JEC World.
